**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

I. Group I, claim(s) 1-3, 18-19, 21-24, 26, 33, 40, 41, 43, 46, 50, 80, 81, 84 and 85, drawn to an electrophoresis gel plate, classified in class 204, subclass 469.

II. Group II, claim 62, drawn to a method of making an electrophoresis gel plate, classified in class 204, subclass 456.

III. Group III, claim 74, drawn to a method of separating macromolecules, classified in class 204, subclass 450.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common feature between Groups I, II, and III is the structural element of an electrophoresis gel plate supported by a hydrophilic microporous membrane. However, Alpenfels et al. (US 5,440,822) teach an electrophoresis gel plate comprising a polymerized gel matrix (col. 4, lines 7-10) supported by a hydrophilic microporous membrane (col. 5, lines 32-35). Therefore, the common feature between all three groups, the gel electrophoresis plate,

does not provide a contribution over the prior art, and, thus, cannot be a special technical feature. Therefore, groups I-III do not relate to a single inventive concept under PCT Rule 13.1.

A telephone call was made to Saul Jackson, Esq. on February 19, 2009, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
